

## CONSTRUCTION WORKERS

**There are reports of some construction workers feeding Tahoe bears.**

**Please Do Not Feed Any Bears. It is a death sentence for them and a \$1,000.00 fine for you.**

**Take all food scraps and wrappings home with you each day.**

**Do not place garbage in the bins or dumpsters at the job site.**

**If bears approach the site during the day, scare them off with yells or throwing things at them. Let them know that they are not welcome close to people and homes.**

**They may walk by at a respectable distance. They share this area with us, but must not learn to become dependent on us for food.**

**Please share this information with others.**

**A bear's life depends on humans doing the right thing.**

### **DO NOT FEED BEARS**
